INSTRUCTIONS

1. Water down Grasshopper with 50% water to 50% paint.
2. Use a small brush to apply the stems by pressing the brush into the grooves on the side of the planter. Use 2 coats of the watered-down Grasshopper paint, allowing the sections to overlap.
3. Use a detail brush to apply little flowers among the stems with 2 coats of the desired paint.
4. To apply centers to some of the flowers, dip the handle of a detail brush into the desired color, and tap it on the center of the flower.
5. Create the the blue dotted flowers by dipping the handle of the detail brush into Deep Sea and tapping it along to create the flowers.
6. Water down Banana Boat with 50% water and 50% paint.
7. Paint the inside of the planter with 2 coats of the watered-down Banana Boat using a fan brush.
8. Use a small brush to apply 2 coats of watered-down Banana Boat to the rim of the planter.

TIPS

- By watering the paint down, you'll achieve a more translucent, watercolor effect. Do not worry about 3 coats, we are not going for solid colors.
- If desired, use a pencil or water-based marker to sketch on the flowers.
